SCIENTIFIC PROGRAM

FRIDAY, NOVEMBER 4th

8,00 Registration

9,00 Welcome
C. Sturiale

Greeting by Authorities
C. Gibertoni, K. Petropulacos, R.Lodi

9,30 *Lecture*
The history of cerebral aneurysms surgery
F. Tomasello

Session Chairs: **M. Gangemi, C. Sturiale**

9,50 Posterior communicating artery aneurysms
A. Raabe, G. Lanzino, V. Quilis Quesada

10,10 Surgical tricks and pitfalls
J. J. Morcos

10,30 Surgical anatomy and video examples
E. de Oliveira

11,00 Video examples
J. Hernesniemi

11,30 Coffee Break

Session Chairs: **R. Delfini, M.M. Fontanella,
G. Pinna,**

11,50 Anterior communicating artery aneurysms
A. Raabe, G. Lanzino, V. Quilis Quesada

12,20 Surgical tricks and pitfalls
J. J. Morcos

12,40 Video examples
J. Hernesniemi

13,10 Surgical anatomy and video examples
E. de Oliveira

13,40 Discussion

14,00 Lunch

Session Chairs: **F. Ammanati, G. Pavesi, R. Scienza**

14,40 ICG Fluorescence and prevention
of ischemic complications
A. Raabe

15,00 Prevention and management
of intraoperative rupture
J. J. Morcos

15,20 Clipping Techniques
G. Lanzino

15,40 MCA aneurysms
A. Raabe, G. Lanzino, V. Quilis Quesada

16,00 Surgical anatomy and video examples
E. de Oliveira

16,30 Video examples
J. Hernesniemi

17,00 Coffee Break

Session Chairs: **E. Giombelli, L. Tosatto,
M.A. Cavallo**

17,20 Update on endovascular treatment
of Intracranial aneurysms
E. Boccardi

17,40 Intrasaccular flow disrupters
L. Spelle

18,00 Giant aneurysms
E. de Oliveira

18,20 Giant aneurysms
J. Hernesniemi

18,40 Complex AcoA aneurysm:
the combined approach
R. Boccaletti

19,00 End of session

SCIENTIFIC PROGRAM

SATURDAY, NOVEMBER 5th

Session Chairs: **A. Ducati, C. Sturiale**

8,45 Tips and tricks of bypass surgery for intracranial aneurysms and training issues
J. J. Morcos

9,15 Complex MCA aneurysm: the combined approach
P. Ferroli

9,35 Management of complex middle cerebral artery aneurysms: a "clip first" policy
A. Pasqualin

9,55 Basilar bifurcation aneurysms
A. Raabe, G. Lanzino

10,25 Basilar bifurcation aneurysms video examples
J. Hernesniemi

10,55 Basilar bifurcation aneurysms
E. de Oliveira

11,25 Coffee Break

Session Chairs: **F. Calbucci, G. Russo, F. Zenga**

11,40 Suggestions for a Young Neurosurgeon
A. Olivi

12,00 What I would do differently today
C. Bortolotti, F. A. Tartara, F. Acerbi, A. Cardia, L. A. Lanterna, A. Musumeci

13,00 Closure

The treatment of Intracranial aneurysms has undergone dramatic changes in the past 25 years. Refinement of endovascular and microsurgical techniques allow us to treat the vast majority of these lesions with minimal morbidity. Because of increasing use of endovascular techniques, the number of intracranial aneurysms treated with microsurgery continues to diminish.

This trend creates major issues in the training of the younger generation of neurosurgeons.

This course plans to fill this gap by providing a step-by-step practical approach to the microsurgical treatment of intracranial aneurysms with particular emphasis on the education of trainees and younger neurosurgeons. The course will also provide an overview on indications and results of the most recent endovascular techniques.
